## UNIC Activities – Logo and Website Launched!

We are happy to announce that the logo and the website of the UNIC project are ready. The logo describes the connections between people as well as the different needs of people and the range of services needed. The logo represents a face; highlighting the user-centred model which supports every person regardless of age and disability, according to their needs, wishes and preferences.

The new project's website is now fully operational and is available here: <https://www.unicproject.eu/>. The website is designed to inform public authorities, long-term care and support services, persons with care and support needs and others about the project's activities. The project is further communicated in multiple social media channels with the hashtag #UNICproject.

You can find all information about the project on the website within sections and the main body of the page is focused on activities that are currently completed, such as meetings, research, dissemination and communication actions. Under the Publications section we will upload the project's outputs when they are ready.

What we consider to be very important is that the website includes a "Helper sidebar" for people with disabilities. Within one click you can make the information on the website more accessible to your needs. We hope that our new website can help disseminate and communicate the project's outputs, and we are looking forward in welcoming you here: <https://www.unicproject.eu/>

### Vojtěch Měrička & Karel Vostrý – European Ageing Network Prague /CZ/, May 15<sup>th</sup>, 2021

The UNIC project has received financial support from the European Union Programme for Employment and Social Innovation "EaSI" (2014-2020). The content of the publication reflects only the author's view and that the Commission is not responsible for any use that may be made of the information that the publication contains.
